

## Swiss Chapter of the International System Dynamics Society: Minutes of the 34. Meeting (System Dynamics Conference St. Gallen)

### **Time and place:**

22 October 2012, Zurich

### **Participants:**

Thomas Beck, Justus Gallati, Louis Gerber, Klaus Kocher, Werner Maurer, Alexander Scheidegger,

Justus Gallati (minutes)

### **Agenda:**

1. Welcome and personal introduction
2. Basic Income (Grundeinkommen): qualitative systems model
3. Summer school
4. Next meeting

<b>Results/Resolutions</b>	
2	<p><b>Basic Income (Grundeinkommen): qualitative systems model</b></p> <p>We developed together a preliminary qualitative systems model about the effects of a basic income (Grundeinkommen) following the argumentation of the proponents. This approach has been chosen deliberately as to simplify and to structure the procedure. For this modeling session the new software <i>smia dynaplan</i> has been used.</p> <p>The discussion showed that it might be good to rely on an existing macro-economic model to use for the economic reasoning. Thus far however no such model could be made available.</p> <p>The participants concluded that the topic is interesting, but that financial means would be necessary to dive more into the topic. Just “scrapping at the surface” is not sufficient!</p> <p>The model draft has slightly been adjusted by Justus Gallati. The two versions are attached to this document.</p>
	<p><b>Summer school</b></p> <p>The idea of a summer school will be taken further by Lukas Schmid and Justus Gallati.</p>
3	<p><b>Meetings 2013</b></p> <ul style="list-style-type: none"><li>- <b>28 January</b></li><li>- <b>29 April (General Assembly)</b></li><li>- <b>21 – 25 July, SD Conference Cambridge</b></li><li>- <b>28 October</b></li></ul>
